ABOUT THE MAXLITE ULTRA

MAXLITE ULTRA HEADLAMP ---Incorporating the newest and latest LED COB lighting technology, the MAXLITE ULTRA is designed with our unique “Ultra Bright Technology (UBT)” that offers a long lasting, super bright 230 degree wide angled luminosity. The MAXLITE ULTRA offers 5 forward lighting options (Main Light: High, Normal & Strobe, Side Spotlight: High & Normal) and 2 red light rear options (Solid & Blinking). Weighing less than 4 ounces, the MAXLITE ULTRA features a soft, breathable, fully adjustable elastic comfort band. For hands free operation, the MAXLITE ULTRA includes a wave motion ON/OFF side sensor. No matter what your need might be, the MAXLITE ULTRA is the perfect lighting accessory for camping, hiking, hunting, fishing, repair, biking, jogging or any other night time task. LIGHT UP YOUR NIGHT WITH MAXLITE!

LIGHT WEIGHT AND COMFORATABLE --- Weighing less than 4 ounces, the MAXLITE ULTRA is feather light and can be comfortably worn for many hours at a time. Unlike other headlamps that feature a rubber or silicone band structure that doesn't breathe and allows moisture to buildup against your skin, the MAXLITE ULTRA features a soft, fully adjustable breathable elastic headband that can be worn comfortably for hours without the worry of moisture buildup.

230° UBT Wide-Beam Illumination ---Instead of a single direction uncomfortable and heavy narrow beam light fixture on your forehead, the super lightweight MAXLITE ULTRA's 230° angle wide beam UBT technology evenly illuminates everything in front and to the side of you. The non-glaring MAXLITE ULTRA UBT white light technology has been created to be comfortable to your eyes for long periods of time ensuring easy use and safety.

Pinpoint Side Spotlight --- For those that need a more focused light, the MAXLITE ULTRA includes our UBT Ultra Bright side spotlight. The MAXLITE ULTRA side spotlight has a high and normal setting and works great for those desiring a more directed light for closer detailed work.

Safety --- With the MAXLITE ULTRA's build-in rear safety lights, you can walk, ride, jog or bike knowing you will be clearly seen by others. Located on the rear power module, the MAXLITE

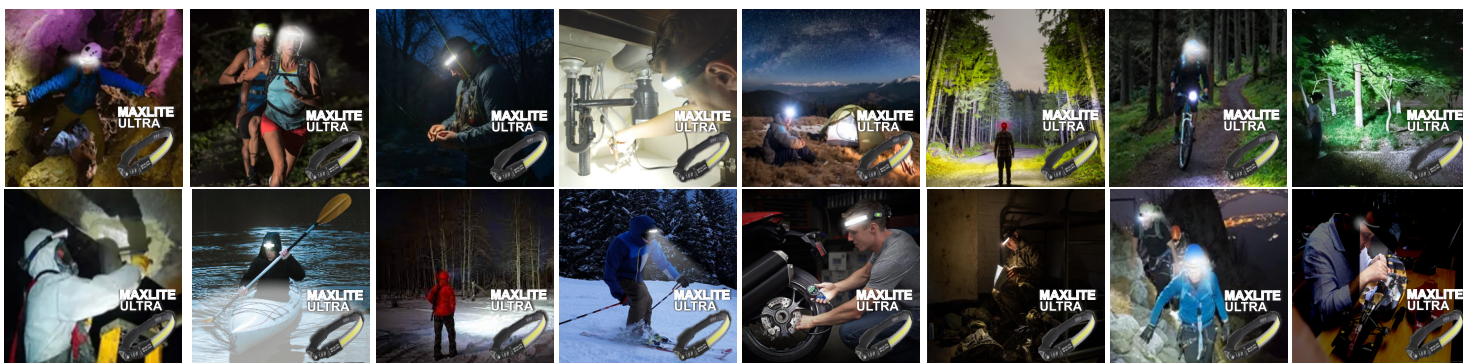

ULTRA features a set of red LED lights that you can leave off, turn on as a solid red or turn on as a blinking red light.

USB Rechargeable Battery & Power Display --- Instead of wasting money on throw away batteries, the MAXLITE ULTRA light weight battery module offers a rechargeable 1200mAh lithium polymer battery that has a life span of up to 50,000 use hours. It offers fast charging (typically 1.5 to 2.5 hours depending on the power source), and includes a power indicator (100% | 75% | 50% | 25%) that clearly shows how much battery power remains. The MAXLITE ULTRA rechargeable power module can be conveniently charged using the included USB-C charging cord with any USB power supplies such as a computer, power bank, auto/marine charger or wall outlet.

Wave Motion ON/Off Sensor --- On the side of every MAXLITE ULTRA is a hands free ON/Off sensor. If you are wearing gloves or your hands might be covered in grime, the hands free ON/OFF sensor allow you to turn the MAXLITE ULTRA on and off just by waving your hand a few inches off the side of the sensor.

Weatherproof --- Extreme heat or cold, rain, snow, sleet, wind or water splashing won't affect the performance of the MAXLITE ULTRA. The MAXLITE ULTRA has been designed and made to hold up to the harshest environments. No matter if you're traversing the slopes, hiking across an aired desert or caught in a high wind rain storm, the MAXLITE ULTRA will shine on providing you with a safe way to your final destination and project completion.

Customer Satisfaction --- Unlike so many other offshore product offerings, the MAXLITE ULTRA has been developed by a company in the USA with over 10 years of dedicated outdoor product innovation and customer satisfaction. Our product performance and our customer's satisfaction are the most important parts of our business. If within 30 days from your purchase you for any reason are not happy with your purchase, you are welcome to return your MAXLITE ULTRA and have your purchase replaced or refunded. The MAXLITE Products Group is USA based and available Monday through Friday 8am to 9pm EST to address any question you might have and are dedicated to ensuring your continued support and satisfaction.

ABOUT THE MAXLITE MINI

MAXLITE MINI UTILITY LIGHT --- Incorporating the newest and latest LED COB lighting technology, the MAXLITE MINI is designed with our unique "Ultra Bright Technology (UBT)" that offers long lasting, super bright luminosity. The MAXLITE MINI offers 4 lighting options High, Normal, Low & Strobe. Weighing less than 2 ounces, the MAXLITE MINI offers an array of features that including a durable aluminum housing, a top carabineer clip, a multi-angle 180 degree rear kickstand, a rear attachment magnet, a corner bottle opener, a bottom tripod mount and a side charger with indicator. No matter what your need might be the MAXLITE MINI is the perfect lighting accessory you can keep on hand when you're camping, hiking, hunting, fishing, repairing, biking, jogging or any other dark area/night time task. LIGHT UP YOUR NIGHT WITH MAXLITE!

LIGHT WEIGHT AND FUNCTIONAL --- Weighing less than 2 ounces, the MAXLITE MINI is a great addition to a key chain and can be comfortably carried in a pocket or clipped on virtually anything. Unlike other micro lights, the MAXLITE MINI features a durable waterproof aluminum housing with countless utility features that makes the MAXLITE MINI a must have for any dark area/night time needs.

Ultra Bright Technology (UBT) Illumination --- The MAXLITE MINI features our exceptionally strong compact "UBT" COB LED light that offers a super bright white light. The MAXLITE MINI "UBT" light is designed to be both bright and long lasting.

Usefulness --- No matter the task, if it is a well illuminated area you need, the MAXLITE MINI will conveniently provide all the light you might require. Along with the MAXLITE MINI illumination performance, the MAXLITE MINI includes an array of built-in features that include a long lasting rechargeable lithium polymer battery, a convenient fully adjustable rear kickstand, a top spring loaded carabineer clip, a corner bottle opener, a rear magnet for mounting to any magnetic surface, and on the bottom of the MAXLITE MINI you'll find a tripod mount.

Safety --- The MAXLITE MINI is the perfect addition to evening walks, or clipped on to a belt loop for those night time hikes. Additionally, the MAXLITE MINI is a must have in

a tool box or in your glove box for those roadside emergencies. At home, when those occasional power outages happen, you'll be glad to have a MAXLITE MINI on hand to light up an entire room or area.

USB Rechargeable Battery & Charge Display --- Instead of wasting money on throw away batteries, the MAXLITE MINI has a built-in 500 mAp rechargeable lithium polymer battery that has a life span of up to 50,000 use hours. It offers fast charging (typically 1.5 to 2.5 hours depending on the power source), and includes a side charging indicator (Red for charging and Green to indicate fully charged). The MAXLITE MINI rechargeable power module can be conveniently charged using the included USB-C power cord and a USB power supplies such as a computer, power bank, auto/marine charger or wall outlet.

4 Light Mode Options --- The MAXLITE MINI features 4 different light modes (High, Normal, Low and Strobe) just a few presses of the side button will provide easy selection to the desired light mode.

Weatherproof --- Extreme heat or cold, rain, snow, sleet, wind or water splashing won't affect the performance of the MAXLITE MINI. The MAXLITE MINI has been designed and made to hold up to the harshest environments. No matter if it's an icy cold 10 below or an aired desert 120 degrees, the MAXLITE MINI will shine on providing you with a bright and convenient light for whatever your need might be.

Customer Satisfaction --- Unlike so many other offshore product offerings, the MAXLITE MINI has been developed by a company in the USA with over 10 years of dedicated outdoor product innovation and customer satisfaction. Our product performance and our customer's satisfaction are the most important parts of our business. If within 30 days from your purchase you for any reason are not happy with your purchase, you are welcome to return your MAXLITE MINI and have your purchase replaced or refunded. The MAXLITE Products Group is USA based and available Monday through Friday 8am to 9pm EST to address any question you might have and are dedicated to ensuring your continued support and satisfaction.
